Locked AstroSage benchmark timeline for this demonstration chart:

Mahadasha	Start	End
Rahu	07 Jun 1978	29 Nov 1989
Jupiter	29 Nov 1989	29 Nov 2005

Current benchmark period: Mercury Mahadasha / Mercury Antardasha. This page is a source-locked demonstration; production reports calculate the customer-specific tree.

The report treats Dasha as a timing layer. Natal promise is read first, then the active period is used to identify which themes are currently activated.

3. Current Transit Snapshot

Benchmark snapshot for 11 September 2026. Production reports calculate the snapshot at generation time through the verified ephemeris pipeline.

Priority timing layer

Jupiter is in Cancer in the 10th house from the Libra natal ascendant; Saturn is in Pisces in the 6th; Rahu is in Aquarius in the 5th and Ketu is in Leo in the 11th. These are calculation facts. Interpretation below is kept measured and rule-dependent.

4. Birth Profile & Life Overview

Chart Foundation

This Libra ascendant chart has a strong concentration in the 8th, 9th, 11th and 12th houses. Libra rising places Venus at the centre of the chart narrative, while the Moon in Gemini in Ardra P2 becomes the foundation for the Vimshottari Dasha calculation.

Life Pattern

The 9th house contains Moon, Jupiter and Venus, making learning, guidance, communication, mentors, travel and broader exposure recurring themes. The 8th-house Sun and Mercury add depth, research and transformation; the 11th-house Mars and Saturn emphasise sustained goals and networks; Rahu in H12 and Ketu in H6 add a private/service axis.

Practical Indication

The most constructive use of this combination is to turn knowledge into a useful capability: advisory work, research, communication, teaching, specialised services or network-led opportunities. The chart should be read as a pattern of tendencies, while timing is determined separately through Dasha and transit.

What to Watch

What to watch: the strongest repeated chart themes matter more than isolated placements. The interpretation becomes more reliable when calculation facts, authorised rules and current timing point in the same direction.

Practical Action

Practical action: turn the interpretation into one or two concrete behaviours, review progress over time and avoid treating a tendency as a guaranteed outcome.

5. Lagna, Rashi & Nakshatra

Lagna

Libra Lagna is approximately 25.9°, with Venus as ascendant lord. Traditionally this gives importance to balance, relationships, presentation, judgement and the ability to compare different sides before acting.

Moon & Nakshatra

The Moon is at 11.50° Gemini in Ardra P2. Gemini adds communication and learning; Ardra is traditionally associated with inquiry, complexity and the process of understanding difficult subjects rather than avoiding them.

Prediction / Practical Indication

The strongest practical advantage comes when communication is combined with analysis. A structured learning routine, careful decision-making and clear communication can convert the chart's natural curiosity into measurable results.

What to Watch

What to watch: the planet's sign, house, nakshatra, lordship and relationship with other planets should be read together. A single placement should not be turned into a guaranteed event.

Practical Action

Practical action: use the strongest repeated themes to guide learning, communication and decision-making, then confirm timing through Dasha and transit before making a specific prediction.

6. Planetary Analysis

Sun & Mercury

Sun 22.82° Taurus H8 and Mercury 14.20° Taurus H8 place identity and intellect in a house traditionally associated with depth, investigation, shared resources and transformation. This is useful for research-oriented or confidential work when supported by the wider chart.

Moon, Jupiter & Venus

Moon, Jupiter and Venus occupy Gemini H9. This is the chart's largest cluster and strongly supports learning, guidance, communication, knowledge exchange and wider perspectives.

Mars, Saturn, Nodes

Mars and Saturn are together in Leo H11, while Rahu is H12 and Ketu H6. Gains can favour disciplined networks and long-term objectives, while the nodal axis asks for balance between service, routine, privacy and expenditure.

What to Watch

What to watch: the planet's sign, house, nakshatra, lordship and relationship with other planets should be read together. A single placement should not be turned into a guaranteed event.

Practical Action

Practical action: use the strongest repeated themes to guide learning, communication and decision-making, then confirm timing through Dasha and transit before making a specific prediction.

7. Important Houses & Life Themes

9th House

Moon, Jupiter and Venus in H9 make knowledge, mentors, teaching, travel, communication and worldview development important life themes. This is a strong area for building authority through learning and experience.

11th House

Mars and Saturn in H11 connect effort with networks, organisations, gains and long-term goals. Saturn asks for patience and repeatable systems; Mars adds initiative and the need to act rather than only plan.

8th/12th Axis

Sun/Mercury in H8 and Rahu in H12 add themes of research, change, privacy and expenditure or distant environments. The practical lesson is to use depth and discretion as strengths while maintaining financial and routine discipline.

What to Watch

What to watch: the strongest repeated chart themes matter more than isolated placements. The interpretation becomes more reliable when calculation facts, authorised rules and current timing point in the same direction.

Practical Action

Practical action: turn the interpretation into one or two concrete behaviours, review progress over time and avoid treating a tendency as a guaranteed outcome.

8. Career & Work Prediction

Career Framework

For Libra rising, Cancer is the 10th house and its lord Moon is in Gemini H9 with Jupiter and Venus. The 11th house also contains Mars and Saturn. This combination supports careers where knowledge, communication, advisory skill, teaching, analysis or networks matter.

Prediction

Career progress is more likely to strengthen when expertise is converted into a visible service, product, teaching platform, advisory role or specialised problem-solving capability. The H8 emphasis also supports work involving research, confidential subjects, investigation or transformation.

Timing

The current Mercury/Mercury benchmark and Jupiter transit through the 10th house make professional systems, communication and learning especially relevant in the current period. This is a supportive theme, not a guaranteed promotion or income event.

What to Watch

What to watch: professional opportunities are strongest when the chart theme is converted into a specific deliverable, measurable responsibility or repeatable service. Pay attention to communication quality, network response and whether new responsibility comes with sustainable systems.

Practical Action

Practical action: choose one high-value skill or service, document the process, strengthen professional relationships and review results regularly. Avoid making a major decision only because a transit appears favourable; the natal promise and active timing must agree.

9. Finance & Wealth Prediction

Wealth Framework

The 2nd-house lord Mars is placed in H11 with Saturn, and H11 itself is strongly activated. Traditionally this is supportive of gains through effort, networks, organisations and long-term objectives rather than relying only on quick opportunities.

Caution

Rahu in H12 can increase attention toward expenditure, distant connections or hidden costs. The practical response is budgeting, documented commitments and avoiding impulsive speculation.

Prediction

The chart favours wealth-building through repeatable expertise, professional networks and disciplined execution. During active Mercury and Jupiter timing, improving systems, communication and knowledge-led opportunities can be more productive than chasing uncertain shortcuts.

What to Watch

What to watch: income opportunities, delayed receivables, recurring expenses and the quality of professional networks should be reviewed together. The chart may describe a tendency, but actual financial decisions must use real-world evidence.

Practical Action

Practical action: maintain a written budget, separate essential and discretionary spending, build repeatable income channels and avoid speculative commitments that are not understood clearly.

10. Marriage & Relationship Prediction

Marriage Framework

The 7th house is Aries and its lord Mars is in Leo H11 with Saturn. Venus, the ascendant lord, is in Gemini H9. Relationship themes therefore connect with networks, shared goals, learning, communication and maturity.

Interpretation

Saturn with the 7th lord can make patience, responsibility and realistic expectations important. Relationships may benefit when both people share long-term objectives and communicate directly instead of leaving assumptions unresolved.

Prediction

The chart supports mature relationship development, but an exact marriage date should be claimed only when the authorised marriage rules, Dasha and transit create a verified timing window. The current emphasis is on communication and long-term alignment.

What to Watch

What to watch: communication, shared goals, family expectations and the ability to handle responsibility together are more useful indicators than a single planetary placement. Timing should be presented as a window only when the authorised marriage rules are activated.

Practical Action

Practical action: discuss long-term expectations openly, reduce assumption-based decisions and judge compatibility through consistent behaviour as well as traditional astrological indicators.

11. Health & Well-being Guidance

Traditional Scope

Astrology is used here only for traditional tendencies, not diagnosis. Ketu in H6 and Rahu in H12 can symbolically emphasise routine, service, withdrawal, sleep or stress-management themes.

Supportive Routine

The chart benefits from a consistent daily structure: regular sleep, practical workload limits, movement, hydration, disciplined meals and time away from excessive mental stimulation. These are general wellbeing practices, not medical treatment.

Practical Indication

If symptoms or health concerns exist, a qualified clinician should remain primary. The useful astrological takeaway is to treat routine and stress management as areas worth protecting consistently.

What to Watch

What to watch: sleep quality, routine stability, workload and stress management are the practical areas most worth observing. Astrology does not diagnose disease and should never be used to delay professional care.

Practical Action

Practical action: keep a consistent routine, seek qualified medical advice for symptoms and use the astrological section only as reflective spiritual guidance.

12. Current Dasha, Transit & Important Timing

Current Dasha

The locked benchmark places the chart in Mercury Mahadasha from 29 Nov 2024 to 29 Nov 2041, with Mercury/Mercury used as the September 2026 benchmark. Mercury is natal in Taurus H8, linking the active period with analysis, research, documentation, complex subjects and transformation.

Transit Activation

On 11 Sep 2026, Jupiter is in Cancer H10, Saturn in Pisces H6, Venus in Libra H1, Mercury in Virgo H12, Rahu in Aquarius H5 and Ketu in Leo H11.

Current Prediction

The combined picture prioritises professional responsibility, learning, systems, service and communication. The best practical approach is to strengthen processes and expertise now, while treating specific event dates as valid only when a verified timing rule supports them.

What to Watch

What to watch: the active Mahadasha/Antardasha establishes the timing layer, while transit shows the current activation. A useful prediction needs both the calculated facts and an authorised event rule; a transit alone is not enough.

Practical Action

Practical action: use the current period to prioritise the themes that are simultaneously activated. When a specific event is requested, present the trigger and time window only if the verified nested Dasha and rule set support it.

13. 15 Personalized Remedies & Final Action Plan

Priority

1. Maintain a daily prayer or disciplined routine. 2. Use only an authorised mantra mapping. 3. Charity or service on a consistent basis. 4. Respect elders and mentors. 5. Saturday discipline where Saturn rules support it.

Planet-linked

6. Thursday learning or charity where Jupiter rules support it. 7. Wednesday skill-building or communication practice where Mercury rules support it. 8. Mindful speech. 9. Regular sleep and routine. 10. Reduce clutter and unnecessary accumulation.

Personal Plan

11. Devotional practice. 12. Avoid impulsive decisions. 13. Consistent savings. 14. Service to animals or needy people where authorised. 15. The final personalised priority remedy should be selected from the verified chart and active period. Gemstones or high-impact remedies require expert verification.

What to Watch

What to watch: the remedy should match a verified chart factor and active timing rather than being a generic list. Safe behavioural, devotional, charity and discipline practices should come before high-impact interventions.

Practical Action

Practical action: follow a small number of remedies consistently, record the routine, and obtain expert verification before gemstones or intensive rituals.
